THREE AIRSHIP FLIGHTS BY THE FAMOUS KATHERINE STINSON

Foot and Boat Races—Grand Industrial Parade—Speech by Hon. James P. Boyle—Baseball, Hibbing Vs. Chisholm—Spanish War Veterans Dance in the Evening

ALL ROADS LEAD TO CHISHOLM MONDAY NEXT

Write Your Friends, Inviting Them to be Present at the Biggest Celebration in the Greatest Section of the Richest State in the Union—"Everybody Decorate" is The Slogan

Everything is in readiness to bring off the biggest celebration ever attempted in the village, bright sunshine from the weather man being all that is required to make the hearts of the old and young, the lame, the lazy, and the blind beat with joy and true patriotism on the 139th anniversary of the nation's birth. The Main streets and business houses of the village have been decorated with bunting and other emblems of loyalty, giving an appearance in accord with the joyful occasion. Promptly at dawn, the committee appointed to stay up all night to fire the guns, will usher in the day with the roar of cannon. The little ones will join the chorus with their fire crackers and other noise making contraptions. The bands will be out in full regalia and force, adding zest to the efforts of the committees. After breakfast the industrial parade and foot races will take place. Then will come the most sensational event that has ever been brought off in Chisholm—an airship flight by Miss Katherine Stinson, the most daring, death-defying, young lady aviator in the civilized world. Miss Stinson will take her life in hand three times on Monday; the first flight to take place in the morning, the second in the afternoon and the third in the evening. She will start her flights from the High school grounds. Hon. James J. Boyle will deliver the oration of the day at the Chisholm Opera house. The races will be continued during the early part of the afternoon after which the big baseball match between the old rivals, Hibbing and Chisholm will take place. The match is scheduled for 2 o'clock. There will also be boat races on the lake of single and double sculls and a motor boat race for $50 between the carva built Water Wagon and the all steel Eudora. The former is of 10 horsepower and the latter 12 horsepower, and should put up a race worth going miles to see. The merry-go-round will be running with its musical accompaniment, giving the little ones a chance to indulge in their favorite amusement. The Spanish War veterans dance will take place at the Opera house, with Sim's high class orchestra as musicians. Altogether a day of real fun, sport and amusement has been arranged for by the committee and it is up to everyone to turn out and help to make the day one never to be forgotten by those taking part, including the thousands of visitors from other towns whose committees have not provided such an elaborate entertainment. Hurrah for the Glorious Fourth!

OFFICIAL PROGRAM

HARDWARE DEALERS TO CLOSE AT 7 O'CLOCK

By unanimous agreement the hardware stores of the village will close every evening, except Saturday, promptly at 7 o'clock. This movement has been on foot for some time, but hitherto no unanimous agreement could be arranged. The public is requested to aid the store keepers and clerks by shopping early.

COUNCIL DECIDES TO LAY OFF MEN

Police Officers Will Lose Three Months In Year—Tetzlaff to Be Sidetracked.

The council met Wednesday afternoon, all members being present except Trustee Mahne, who is in the southern part of the state.

Dr. A. W. Graham appeared before the board and requested that the services of Assistant Health Officer Herman Tetzlaff be retained for at least two months longer as the summer months were those when he was most needed. It was suggested by Trustee Ulrich that Andrew Haglund, be allowed to go and Tetzlaff retained. Dr. Graham suggested that Haglund was a good man for his job and should be retained. The matter was allowed to stand over until next meeting.

Here President Fugere stated that he was told by the vice-president of the Oliver Iron Mining company, Pentecost Mitchell, that the Chisholm, Sec. 37 and Leonard-Burt pit mines would be opened in a week or ten days and that these mines would take up all the men laid off by the village.

The parade committee of the Fourth of July celebration extended an invitation to the council members to take part in the parade. The invitation was accepted.

All bids on an addressograph were rejected and the certified checks ordered returned to the bidders.

The council then adjourned.

At a special secret meeting of the council held Monday it was decided to lay off four policemen for thirty days. The men will be laid off in batches of four so that each will lose ninety days in the year. The plan was adopted in preference to laying off half the force as suggested by some of the council members earlier in the year. The men were called together by Chief of Police Bergeron Tuesday and informed of the plan, the men accepting the idea in lieu of dismissal.

EDITOR CUPPERNULL BREAKS ANKLE IN AUTO ACCIDENT

David E. Cuppernull, publisher and editor of the Daily Virginian, sustained a broken ankle and scalp wounds when he was thrown from his automobile while returning to Virginia from Biwabik. "Davy" is confined to his home for repairs. The automobile turned over twice and landed in a ditch. Edward Ramquist, who accompanied Mr. Cuppernull, escaped injury.
